Join us to celebrate Mental Health Awareness month!

Testimonios Project trains Youth Promotores (ages 16-25) to conduct mental health pláticas! The goal of the project is to reduce stigma, engage and educate the Latino community on mental health issues and resources, and inspire the future mental health workforce.

This is also a great opportunity for you to meet and network with other community gatekeepers, leaders, and community members. Please bring your flyers, brochures, or business cards to share with our community.

Refreshments will be provided!
